Distribution Stringing Blocks

Slingco offers two lightweight, rugged, reliable and durable aluminium distribution stringing blocks.

Used in conjunction with purpose-designed accessories, the Slingco 7" blocks have proven extremely popular with utility operators and their contractors for the exceptional versatility they offer in terms of installation applications and locations.

Their low-friction bearings deliver high efficiency, which helps to maximise stringing distances while minimising pulling tensions and reducing loads on stringing equipment.

Crossarm Ratchet Strap Bracket

Used in conjunction with Slingco's 7" Stringing Blocks, the Crossarm Ratchet Strap Bracket (ZMI14338) can be mounted on wooden, fibreglass or composite crossarms, as well as concrete, wood, or steel poles. This versatile crossarm bracket with ratchet strap allows stringing blocks to be mounted horizontally or vertically.

Strap length is 60" (1500 mm), with a WLL of 2500 lb (1,133 kg).

Crossarm Brackets

Slingco Crossarm Brackets are designed for easy attachment of distribution blocks to crossarms. Securely mount distribution blocks to crossarms at three convenient angles based upon the needs of your pull. Quick release pin for attachment of distribution block. Fits most crossarm sizes.

Two styles available: full frame (ZMI10018) and partial frame (ZMI10017).
