

**NON-METALLIC ARAMID  
CABLE SOCKS**

**MADE TO LAST AND  
HOLD IN SALT WATER,  
WASTE WATER AND  
WHERE POLLUTANTS  
ARE PRESENT**

# UV-RESISTANT NON-METALLIC ARAMID CABLE SOCKS

- Break loads similar to steel cable socks
- Lightweight
- No more frayed sock wires
- UV Resistant and strong enough to last in salt water, pollutants, and underground
- We can create custom socks to meet your specifications

Slingco's line of Non-Metallic Aramid Cable Socks are ideal for use in fibre optic cable installation operations, offshore applications, or for a multitude of uses in the utilities industry.

These socks are made of a high-strength, non-metallic aramid fibre, with UV protective coating, and now feature an improved weight to break ratio. They are suitable for pulling both single cable and multiple cable bundles.

Thanks to the non-metallic material, these socks are easy to work with even without gloves. The woven mesh material

also offers a non-metallic, non-conductive alternative to steel socks.

We have many different styles of Non-Metallic Aramid Cable Socks for your project, such as Single Eye, Double Eye, Offset Eye, Lace Up, Mining Socks, and our new Single Eye Double Weave Socks made of ultra flex aramid material. We can also work with you to customise an Aramid Cable Sock to match any particular project specifications.

Call your Slingco Account Manager today and they will help you select the right grip for your project!

## NS TYPE - SINGLE EYE ARAMID CABLE SOCK

Single Eye Single Weave Non-Metallic Cable Sock

Single Eye Double Weave Non-Metallic Cable Sock
