

SLINGCO HYDRAULIC CRIMPING TOOLS

FOR USE IN DISTRIBUTION & TRANSMISSION APPLICATIONS

TCR7018

FEATURES

- Accepts Burndy L & Alcoa 6000 Series dies
- Steel carrying case
- Includes ground stand
- Lifting eye for hoist work
- For Crimping ACSR and ACAR transmission & distribution cables

Slingco's Hydraulic Crimping Tools are designed to crimp sleeves and lugs on ACSR and ACAR transmission & distribution cables using dies that meet the standards of the utility industry. Our crimping tools are ideal for use in constructing substations and transmission lines.

The Single-Acting Crimping Tool uses hydraulic pressure to advance the ram into position, and an internal spring to return the ram to the original position. The Double-Acting Crimping Tool advances and returns the ram using hydraulic pressure alone, eliminating the possibility of the ram sticking or becoming jammed.

Our Hydraulic Crimping Tools (60-ton only) come in a steel carrying case, and are lightweight and portable. They accept Slingco S60 Dies, or any shell-type dies used with Alcoa or Burndy 60-ton crimping tools.

TCR08490

Slingco Part No	Crimping Force Tons	Operating Pressure	Action	Tool Weight		Oil Required
				lb	kg	
TCR7003	60	10,000 psi (690 bar)	Single-Action	47	21.32	308 cc
TCR7018	60	10,000 psi (690 bar)	Double-Action	51	23.13	314 cc
TCR08490	100	10,000 psi (690 bar)	Single-Action	78	35.38	422 cc
