

Transformer Gin

Engineered for safety and performance

TRANSFORMER GIN

Slingco Transformer Gins facilitate rapid attachment to poles and can be seamlessly installed over 3-3/4" x 4-3/4" (95.25 x 120.65 mm) cross arms, providing flexibility for installation at any point on the pole.

Constructed from durable ductile iron, these gins ensure long-lasting performance and contribute to a safer work environment with a working load limit of 1,900 lb (861.8 kg). Additionally, the transformer gin is available in both chain binder and ratchet strap versions to meet diverse operational needs.

- ✓ Made of Ductile Iron
- ✓ Safe for use up to 1,900 lb
- ✓ Installs over 3-3/4" x 4-3/4" cross arms for more versatility
- ✓ Available in Chain Binder and Ratchet Strap configurations

Slingco Part No.	Weight		Working Load Limit (WLL)*		Eye Offset from Pole OD	
	lb	kg	lb	kg	in	mm
ITP15768 (Chain Binder)	11.82	5.36	1,900	861.8	10.63	270
ITP15769 (Ratchet Strap)	9.72	4.41	1,900	861.8	10.63	270

*The working load limit represents the maximum load that should be applied to the product under any circumstances. The limit is determined based on the load being evenly distributed in a straight-line pull. The user must set a working load limit for each use. Many factors should be considered including but not limited to, the load, speed, acceleration, rope length, shock, wear, the condition of all equipment, and the risk to people and/or property if any component breaks.
